

# C40

40/45/50s/55s

IC-PNEUMATIC    LPG/DIESEL  
8000 / 9000 / 10,000 / 11,000 lbs.  
(4000 / 4500 / 5000 / 5500 kg)

GEN 2

**CLARK**®

**THE FORKLIFT**

- Low effort **hydrostatic power steering** provides the operator with excellent maneuverability and ease of control.

- Low, open foot step with **traction plate** makes entry/exit quick, easy and safe.

## Rugged Durability and High Performance in Demanding Applications

The **NEW** GEN2 C40-series is designed to tackle any task placed in its path. The open-core, plate-fin radiator provides **maximum cooling of the engine and transmission in the harshest environments** and the most demanding applications.

# 98%

Engineered for extreme environments, the C40-series is equipped with a two-stage air filter system that removes 98% of incoming dust and debris before it enters the filter media.

- Nested upright rails provide positive rail interlock and a narrow “column” to **maximize the vision window**. The overhead guard safety bars run parallel to the operator’s line of sight resulting in a **clear, unobstructed view**.

**Maximum Visibility + Minimum Fatigue =  
Ultimate Safety & Product Integrity**

# C40 STANDARD FEATURES & BENEFITS

## PARKING BRAKE

### ■ Simple & Error Proof

- Hand operated lever actuates brake.
- Transmission disengages when parking brake is set preventing driving against park brake.
- Horn will sound if brake is not set after 3 seconds.

## WET DISC BRAKES ON ALL C40 MODELS

### ■ Enclosed & Oil Cooled

- For smooth, quiet operation.
- Minimal wear promotes long life.
- Reduced maintenance means less downtime.

### ■ Power Assist Design

- Low pedal effort reduces operator fatigue.

### ■ 36 months / 10,000 hour warranty on brake discs

## THE POWER BEHIND THE PUNCH

### ■ Field-Proven 4.3 L V-6 GM LPG Engine

- Provides smooth, quiet operation.
- Computer-controlled fuel system.

### ■ 3.8 L Turbocharged Kubota Diesel Engine

- Provides exceptional output, torque & fuel economy.
- Cold start system comes standard.
- Increased horsepower for better acceleration.

### ■ Auto Shut-Down

- Protects your investment in the event of low engine oil pressure, excessive engine coolant or high transmission oil temperatures.

### ■ EPA Compliant

- Engines meet reduced emission and smoke levels.

## Available Equipment

- Double auxiliary valve
- Hose adaptations
- Hydraulic control options
- Side shifters
- Strobe lights
- Reverse Alarm
- Rear work light
- Mirrors
- Cloth suspension seat
- Turn, stop and backup lights
- LPG
- Various tire options

## EASE OF MAINTENANCE

### ■ Service Access is Simple

- Seat Deck raises for easy access to both sides of engine and floorboard is removable revealing hydraulic & transmission components.

## RUGGED CONSTRUCTION UPRIGHT AND CARRIAGE

### ■ I-Beam style upright

- Rails are designed to be 55% stiffer than conventional flat-faced rails.
- Better resistance to side-to-side deflection.
- Promotes longer life and improved stability with elevated loads.

### ■ Hydraulic Cushioning Valves

- Silent staging reduces shock & vibration.

### ■ Shimmable, Sealed & Canted Load Rollers

- Carriage has 6 load rollers & 4 side thrust rollers.
- Maximize load distribution and reduce free play.

### STEERING AXLE

- “Double shear” design linkage pivot pins and tapered roller king-pin bearings withstand impact without loosening or breaking.

### ONE-PIECE FRAME

- Heavy duty, welded, and formed steel plate design protects from impact damage and extends the life of the truck.

## HYDRAULIC SYSTEM

### ■ Maximum Horsepower

- Uses a load-sensing flow control valve for steering to reduce horsepower loss and heat buildup.

### ■ Optimum Performance Of Attachments

- The main hydraulic valve incorporates adjustable flow controls for tilt and auxiliary functions.

### ■ Sectional Design

- Allows for easy addition of extra functions and simplifies service.

### ■ Upright Mounted Load Lowering Valve

- Controlled lowering independent of engine speed.

## OPERATOR COMPARTMENT

### ■ CLARK Vinyl Safety Seat

- 6” fore / aft adjustment .
- Molded for support.
- Non-cinching, retractable seat belt.
- Standard weight adjustment and full-suspension.

### ■ Operator Presence Sensing System

- Hydraulic and transmission functions disengage when operator leaves seat.

### ■ Thick Molded Floor Mat

- Reduces vibration and noise level.
- Improves operator comfort.

### ■ Hood Mounted Hydraulic Controls

- Located and sized for ease of use.

### ■ Low cowl design

- Greatly increases visibility of forks and load.

### ■ Tilt Steering Column

- Adjusts to suit operator & provides easier entry/exit.

# GENERAL DATA & STANDARD DIMENSIONS

## Grade Clearance

Model	A%	B%
C40/45 – Single Drive	30	30
C40/45 – Dual Drive	31	26
C50s/55s – Single Drive	30	29
C50s/55s – Dual Drive	31	25

• Indicates preferred common specification.

<sup>1</sup> For overall height raised with load backrest, add 48 in. (1220 mm) to maximum fork height.

<sup>2</sup> Standard tilt shown. Contact a Clark representative for information on optional tilt.

<sup>3</sup> Freelift dimensions shown are without load backrest.

<sup>4</sup> For overall height lowered with dual drive on C40, C45 & C50s, deduct 1.1" (28 mm). C55s is shown with dual drive

Other uprights available, contact a Clark representative.

## Notes

Production engines and driveline components may vary in output and/or efficiency by ±5%. The performance shown represents nominal values which may be obtained under typical operating conditions of a machine.

## ANSI/ITSDF and Insurance Classification

Standard truck meets all applicable mandatory requirements of Part III-ANSI/ITSDF B56.1 Safety Standard for Powered Industrial Trucks and Underwriters Laboratories requirements as to fire hazard only for D and LP classifications. For further information contact a Clark representative.

Users should be aware of, and adhere to, applicable codes and regulations regarding operator training, use, operation and maintenance of powered industrial trucks, including:

- ANSI/ITSDF B56.1
- NFPA 505, fire safety standard for powered industrial trucks - type designations, areas of use, maintenance and operation.
- Occupational Safety and Health Administration (OSHA) regulations that may apply.

Contact your authorized CLARK forklift truck dealer for further information including operator training programs and auxiliary visual and audible warning systems, fire extinguishers, etc., as available for specific user applications and requirements.

Specifications, equipment, technical data, photos and illustrations are based on information at time of printing and are subject to change without notice. Some products may be shown with optional equipment.

For corresponding data see Specification Chart

## ***& Don't Forget...*** **Safety Starts With You!**

### **Before operating a lift truck, an operator must:**

- Be trained and authorized
- Read and understand operator's manual
- Not operate a faulty lift truck
- Not repair a lift truck unless trained and authorized
- Have the overhead guard and load backrest extension in place
- Perform daily inspections

### **During operation, a lift truck operator must:**

- Wear a seat belt
- Keep entire body inside truck cab
- Never carry passengers or lift people
- Keep truck away from people and obstructions
- Travel with lift mechanism as low as possible and tilted back
- Allow safe stopping distance and come to a complete stop before leaving operator compartment

### **To park a lift truck, an operator must:**

- Completely lower forks or attachments
- Shift into neutral
- Turn key off
- Set parking brake

- We don't just build forklifts. As a company, we are also focused on providing our customers with the best possible technical service support and aftermarket parts available.
- Even though our business starts with a quality, cost-effective product, our organization understands that it is the support and services we provide after the sale that help keep your business running at peak efficiency.
- **THE CLARK PartsPRO® SYSTEM** is our industry-leading electronic parts and service documentation tool that provides dealers with a quick and accurate method of identifying parts for every CLARK forklift built since 1961. PartsPRO® ensures the availability of the most current technical information and has the unique capability to create parts manuals specific to your mixed CLARK fleet, making it simple to positively identify and order the correct part(s) from your local CLARK dealer. The right CLARK part — The First Time, Every Time.
- **UNRIVALED PARTS SUPPORT** Our Aftermarket Distribution Center provides parts to over 250 North American CLARK dealers and many international dealers. This CLARK operated 184,000 square foot facility is dedicated to supporting the CLARK models built over the last 90 years. This facility is focused on providing excellent off-the-shelf availability, quality parts, quick response time and competitive pricing.

**DEPENDABLE PARTS = DEPENDABLE TRUCKS**
